PENCILLETES.

The nights are still cool. To-morrow will be a red letter day in Knoxville.

Yesterday was pay-day at the office of the E. T. V. & G. railroad. Many of the employees in the city could be seen last night wending their way homeward with arms full of bundles.

Any one desiring to buy a good 325 acre upland farm in upper East Tennessee can learn of one in which there is a bargain by calling on or addressing Dr. A. B. Tadlock, of Knoxville, Tenn.

The Republicans of Chattanooga, according to the Times, had a rousing meeting Monday night and organized a Garfield and Arthur club. Col. W. C. Baird was chosen chairman and Maj. C. L. Brown secretary.

Circular Saws and Gum Belting, all sizes, at factory prices, at W. W. Woodruff & Co's.

Our democratic friends flung to the breeze yesterday a large and excellent oil painting of Gen. Hancock, the work of Mr. Lloyd Branson. The other work of trimming it was done by the citizens. It hangs across Gay street, from the Mechanics' bank to Kohlhaase's saloon. The democrats, we understand, have secured the room just vacated by Loveman & Co., in the McKinney building, and propose soon to remove their headquarters there and extend a large and handsome banner across the street at that point.

Reward.—We will pay a reward of one thousand dollars for any certificate published by regarding Dr. Bull's Cough Syrup not found genuine.—Vogeler, Meyer & Co., Baltimore, October 1, 1877.

Hydrophobia!
Dogs transmit it through their teeth. Teeth should be kept free from virus. Use SOZODONT, keep the human teeth clean, and no damage can be done by the man who says to his girl, "I feel like eating you up, dearest."

E. R. Dawley, of Providence, R. I., says: "Having witnessed the wonderful effects of HUNT'S REMEDY in my own case, and in a great number of others, I recommend it to all afflicted with Kidney disease. Those afflicted by disease should secure the medicine which will cure in shortest possible time. HUNT'S REMEDY will do this."

Sells Brothers' Great Show.
Mr. Chas. S. Sells, general agent of Sells Brothers' stupendous confederation of railroad shows, is in the city arranging for the appearance of this mammoth circus in Knoxville, on Friday, October 2nd. Mr. Sells gave the CHRONICLE a pleasant call. We find him quite a clever and agreeable gentleman, and a tip top business man. He has with him the special bill of the mammoth concern, and our boards will soon be decorated with the flaming and attractive bills. Look out for them, boys, and begin to save your nickels.

THE CRANBERRY ROAD.

Work to be commenced on it immediately.

The people of Knoxville and all Eastern Tennessee will be glad to hear that work is to be commenced on the East Tennessee and Western North Carolina railroad. Fourteen miles of the road was graded several years ago. The bridges and trestle-work was also completed on that portion of the line and five miles of the track laid. It is to be changed, however, to a narrow-gauge road, and the contract for this fourteen miles has been let to Mr. P. F. Cogan, of Jersey City, New Jersey. He will put a force on it at once, and it is expected that it will be completed to Hampton, in Doe river cove, by the first of January.

The contract for the remaining seventeen miles to the North Carolina line, has been awarded to Messrs. Mills and Rowland, of Philadelphia. They have been in Knoxville this week, with a view of purchasing supplies. We understand they were well pleased with what they found here and that they will probably get a large part of their supplies from Knoxville. Their portion of the work is through a rough country. About 2 1/2 miles runs through what is known as "the gorge" and is very heavy work. They have five tunnels in their contract, all short ones. They also have five bridges over Doe river and Wilson's creek. It is expected that they will complete their contract in twelve months.

Maj. N. E. Seales, of Knoxville, will have a contract. He leaves to-day with supplies and a number of hands, to commence work immediately. The major is an experienced railroad man, and will do what he undertakes. He has not decided yet how much of the road he will undertake, but we learn he has the privilege of five miles.

We learn that it is contemplated putting five miles of the road beyond the North Carolina line under contract at an early day. The road is being constructed by Messrs. Pardee & Co., of Philadelphia, who are large manufacturers of iron and steel. Their object is to develop the rich Cranberry iron ore for which that section is noted. It is equal, if not superior, to any iron ore on the continent, and is sought after by iron manufacturers far and near. The advantage to that immediate locality, and to all East Tennessee, arising from its development, cannot be over-estimated. The early completion of that railroad is now assured, and this is all that is wanting to make the Cranberry country one of the richest and most desirable iron districts in the world.

STRANGE that people will suffer so much from dull feelings, the blues and debilitated body, when they can be so surely cured by simply taking a few doses of Simmons' Liver Regulator. It will impart new life and vigor to the whole system by purifying the Stomach and regulating the Liver. Could our readers be brought into contact with the host of respectable witnesses who regard Simmons' Liver Regulator as the safest and best family medicine for Dyspepsia, Sick Headache, Constipation, Biliousness, Colic, Sour Stomach and Malarious Fevers, they would no longer wonder at the great fame it has acquired throughout the country.

"As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels."

"W. J. McELROY, Macdon, Ga."

Mr. W. H. Patty, a live and enterprising merchant at Cog Hill, McMinn county, and a staunch friend of the CHRONICLE was in the city and kindly remembered us with a call yesterday.

The Fall Stock Trade.
As the fall season opens the stock begins to move south pretty lively. Yesterday two car loads of horses and mules bought up by Jones & Davis, at the stable of M. E. Thompson & Bro., were loaded and shipped south. Mr. Pless, Roberts accompanying them. Monday the same firm shipped a car load. Mr. S. H. Davis accompanying them, and Monday night Mr. John G. Rushing shipped a load also bought up there. Mr. Lawrence, of Maryville, drove in a load of horses yesterday evening. He has them at Thompson's stable for shipment.

THE TRIBUNE GENIUS.

An Extremely Neat Specimen of Reporting.

The man who does the local work on the Tribune is a genius. There can be no doubt on this point. He is certainly the Macaulay and Froude combined, who Whitelaw Reid thinks will do the reporting of the future. Our only wonder is, that he is content to bury his remarkable gifts in such a comparatively obscure place as Knoxville is. It is undoubtedly a case of burying his talent in the ground, a proceeding which no less an authority than the Bible declares is wrong.

His wonderful brain shows itself all over this part of the Tribune, but in his report of the "Red Cloud's" speech at Trundle's X Roads, it is more particularly noticeable. There it fairly looms up. In fact, we don't think we will exaggerate when we say it literally booms. The reporter was not there and no such speech was made, but a little that does not detract from the excellence of the printed report. It reads so smoothly, "trippingly on the tongue," as it were, the sentences were so well rounded, and the whole thing was so euphonious, that we must be allowed to add our commendation. Bravo, young man! You are an ornament to journalism.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years, has uniformly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and as a result of this effort, and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has compounded a soothing syrup, for children's teething. It operates like magic—giving rest and health, and is moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially in this case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No Mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it mothers.
